

MEET THE TEAM

ERIN BUTLER, PhD CLINICAL EXPERT

Erin has a strong scientific background with 20+ years of experience at the intersection of clinical medicine, bioengineering, and academia, with 2 years of project

management experience. She possesses excellent analytical, organizational, and communication skills, and she is very detail-oriented.

Erin thinks and acts strategically to establish realistic goals and meet deadlines toward project completion and works hard to create and maintain positive, productive relationships with individuals at all levels of an organization.

She has the unique ability to understand and process technical information and distill it into an easy-to-digest format.

Erin has worked as a bioengineer at the Lucile Packard Children's Hospital at Stanford in motion and gait analysis, and as a research scientist at the Geisel School of Medicine at Dartmouth. She did her postdoctoral training at Dartmouth College in neuroimaging.

She holds a doctorate in Bioengineering and master's degree in Mechanical Engineering from Stanford University. She has a bachelor's degree in Bioengineering from the University of Pennsylvania.

When not working, Erin enjoys traveling the world and spending time with her family and friends at home in Vermont.

OUR EXPERIENCED TEAM MAKES THE WINS HAPPEN!

"Cumby Consulting's ability to translate highly technical information to a wide variety of student experiences is what makes their programs highly effective and in-tune with the company's objectives."
